Breathe Easier. Live Better.

The **AEROBIKA*** Oscillating Positive Expiratory Pressure (OPEP) Therapy System works with the lungs to help loosen and remove mucus.

Recommended for people with:

- COPD
- Bronchiectasis
- Chronic Cough
- Cystic Fibrosis
- Breathlessness
- Recurring lung infections

The **AEROBIKA*** is the only OPEP device that can be used simultaneously with the **AEROECLIPSE*** Breath Actuated Nebuliser. Reducing therapy time may improve treatment compliance.
